

# Strategic Focus 2023 - 2025

Wellbeing for Learning

## 01 Community

Families, students and school staff collaborate to achieve quality outcomes for students based on individual strengths.

## 02 Culture

The beliefs, perceptions, relationships, attitudes, and written and unwritten rules that shape and influence our school are positive and promoted and modelled through respectful relationships and interactions and reflected by our school values.

## 03 Environment

We create and care for indoor and outdoor learning environments that are inclusive and sustainable.

## 04 Policy & Practice

Local school policies are created and implemented to support equitable and inclusive resourcing, practices, processes and outcomes for students and staff.

## 01 Future Focus

Students are valued as active citizens in our community and engaged as real-world problem-solvers with agency.

## 02 Improvement

Evidence based practices are identified to support teachers to address the "challenges of practice" in the *School Improvement Plan*.

## 03 Intentionality

Teachers engage in action research cycles, with their peers, to improve student outcomes.

## 04 Impact

Teacher practice is informed by the *School Improvement Plan* goals, annual targets and actions with monitoring and evaluation processes in place to determine impact of practice on student learning outcomes.

Innovation for Learning
